5. The Order is intended to introduce new or amend existing waiting restrictions at various locations and to introduce parking bays as specified. The waiting restrictions are intended to address all or some of the following situations: improve safety by providing increased visibility, especially at junctions and on bends; prevent obstructive parking so that turning vehicles have sufficient manoeuvrability and improve access for all road users, especially pedestrians, cyclists, emergency, and public service vehicles. The new parking bays are intended to improve parking opportunities for resident permit holders and motorcyclists in the area.
