Learning about ASB in private rented properties

The Private Sector Team are also considering running a small workshop where we consider how a landlord or property agent can better manage poor ASB in privately rented properties. The session will be attended by the Anti-Social Behaviour Enforcement Team Leader and we will look to hold the event either in December 2025 or January 2026. The Council would like to invite 10-15 landlords or property agents to the workshop and would like to hear about some of the more serious cases and the impact they had and the approaches that were taken to try and manage the situations. If you are interested in joining this workshop then please email
